Others - [contact us for more info.](#)

Tips on Pricing & Prep

1. As a general rule, price your items around 75-80% off of original retail price or
2. Price between garage sale and store clearance sale pricing.
3. Double check for stains, tears or missing buttons. Only bring your best items!
4. Take a little extra time to clean & prep your items. A Mr Clean Magic Eraser works wonders on toys & shoes!
5. Group clothing in sets or multiples of the same size and brand.
6. Safety pin clothes to the right size wire hanger.
7. Package small items together in one big bag.
8. Replace batteries. The dollar store is a great resource.

Remember, you have the option to include your unsold items in the 1/2 price sale and/or donate any unsold items to charity.

Earn bonus commission:

- *Volunteer to help us - email us for open positions.
 - *Refer new consignors
 - *Distribute flyers
 - *Fill goody bags - **Full**
